

## **Q&A's with the FILMMAKER!**

### **INSTRUCTIONS FOR USING WEBCAMS & SKYPE:**

(Instructions provided for by Roberta MacDonald – thanks Roberta!)

Be sure you have your webcam installed on your computer first, so not only will you be able to see the filmmaker, she'll be able to see you as well. I recommend the Eyeball 2.0 on amazon for \$39.95...

Then go to <http://www.skype.com/intl/en-us/home>

Click on the "Get Skype" button

On the next page click on Windows (if that is what you are using on your PC)

Then click on the "Download Now" button

The next box that comes up will ask you if you want to run or save the file. I always suggest people save the file to their desktop.

Then when it asks you, "Open the Folder"

Double click on the Skype Setup icon and install skype onto your machine.

Once it is installed, double click on the Blue Skype icon

A window will come up and you will have to setup a Skype account with a username and password.

Once you are through, log into Skype

When Skype opens up you will click on "New" and then "Contact".

Another box will open up and Ask you to add a contact. You can key in "Jean Strauss"

Locate the correct Jean Strauss, and click on her name.

The next box will ask you to call or enter a message to Jean Strauss - click on "OK"

Wait for Jean to answer you back.

Once she does, you will be able to click on her name, and then click on video call. She'll answer and you will be connected!

If you aren't able to contact Jean through Skype, call her on her cell phone: 909-261-2012.
